

Small Tree Information.

Trees of 10-12m in height are usually reasonable for smaller gardens. However taller, upright trees can also be considered. With small trees it is always best to try and select a tree with as much all year round interest as possible. Here is a selection of small trees recommended by Rochfords.

Latin name	Flower/Habit	Size
Betula pendula 'Youngii'	Dome-shaped tree, yellow foliage in autumn	8m
Carpinus betulus 'Fastigiata'	Narrow, upright tree with yellow foliage in autumn	15m

Planting Information and Aftercare.

Make sure all trees are well watered in for the first few years. Keep weeds away from the main stem.
